

wind_speed

Location: planning\wind_speed

Description

This layer consists of wind speed regions in Bay County based on new Florida Building Code effective January 1, 2002. The layer has two polygon features, with Hwy 20 being the divider.

August 2002: Changed attributes from 100 mph to 120 mph and 110 mph to 130 mph; changes initiated by Mike Gerald of Development Services.

For the coastal construction control line, see **coast_ccl**.

For the 1-mile coastal wind-borne debris region, see **wind_debris**.

Source

This layer was created July 2001 by Bay County GIS for Bay County Builders Services. Features from **county** and **roads** (Hwy 20) were used in ArcInfo to create **wind_speed**.

This data is provided with the understanding that the conclusions drawn from such information are solely the responsibilities of the user. The GIS data is not a legal representation of the features depicted, and any assumption of the legal status of this data is hereby disclaimed.
